Dear Mr. Moser,

Please treat this as a counsel-only preservation notice and request that your client stop making or repeating false claims that I encouraged self-harm, threatened violence, or posed a safety risk.

I am writing to you as counsel, not to Ms. Mentele directly, because a hearing remains pending.

I dispute and deny any claim that I encouraged Ms. Mentele to commit suicide, threatened violence, intended violence, or posed a physical danger to her, 605 Cannabis, or any affiliated person. Any such claim is false.

For months, I have been accused or portrayed as violent, dangerous, threatening, or acting with unlawful intent despite the absence of evidence supporting those accusations. These statements harm my reputation, chill protected speech, and place me in fear that false accusations may be used to provoke further legal action, public hostility, or safety concerns.

Accordingly, I request that your client and any persons acting with or on behalf of your client:

1. Cease making, repeating, publishing, or implying false statements that I encouraged suicide, threatened violence, intended violence, or posed a physical danger.
2. Preserve all communications, screenshots, emails, texts, social-media messages, police reports, pleadings, internal communications, and third-party communications relating to any allegation that I encouraged suicide, threatened violence, harassed anyone, or posed a safety threat.
3. Avoid any direct contact with me while the pending matter remains unresolved.
4. Direct any response to this letter through counsel or in a manner consistent with any court orders and pending proceedings.

This letter is directed only to counsel and is not a request for Ms. Mentele to contact me directly.

This letter is not intended as harassment, intimidation, or direct contact with Ms. Mentele. It is a narrow preservation notice and request that false allegations of violence or encouragement of self-harm not be repeated outside lawful court proceedings.

Nothing in this letter waives any rights, claims, defenses, or remedies. All are expressly reserved.

Sincerely,

Jason Karimi
